

Daily cleaning with correct anti-static products will reduce dust and dirt, keeping screens clear and reducing one of the causes of eyestrain.

SCREEN CLEANING

Dirt, dust and greasy fingerprints make screens difficult to read and may lead to headaches, eyestrain and cause wrinkles in the delicate skin around the eyes. The AF range of screen cleaning products provide a non-flammable, non-toxic, non-smearing solution.

Where they are most likely to be used:

A variety of screen types are available in today's market; TFT and LCD are amongst the most common, but now tablet, LED, OLED and plasma technology calls for a softer but effective cleaning solution. AF has a cleaner for ALL types of screen.

Laptop-Clene - wet & dry cleaning wipes

LTC005 / LTC010	5 wet/dry wipes / 10 wet/dry wipes
	Wet/dry cleaning system. Made from lint-free cloth, packed individually. Suitable for TFT, LCD, flat screens on laptops, notebooks, PDAs and touchpads.

Multi-Screen Clene - with large micro fibre cloth

MCA_200LMF	200ml / large micro fibre cloth
	A universal cleaner for use on ALL types of screens including TFT, LCD, touchscreen, tablet, LED and plasma technologies. Also cleans screens of PSP's, phones and MP3 Players. For best results use the large soft micro-fibre cloth provided.

Multi-screen Clene + free micro fibre cloth

MCA_200MIF	200ml / micro fibre cloth
	A universal cleaner for use on ALL types of screens including TFT, LCD, touchscreen, tablet, LED and plasma technologies. Also cleans screens of PSP's, phones and MP3 Players. For best results use the soft micro-fibre cloth provided.

Anti-Static Screen Gel & Cloths - gel with cloths

SCG000	125ml pump spray with cloths
	The anti-static gel formulation should be sprayed on to a single Safecloth or Super-Cloth or directly into the centre of the screen and wiped immediately. The gel provides easy and efficient cleaning, giving best results when the screen is cold.

The specialist manufacturers of technology and office equipment cleaning products for:

- PC • Workstation • Office equipment • Multi-media • Tablet • Smartphone
- Touch and plasma screen technology • ATM and EPOS cleaning

HELP US SPREAD THE WORD, NOT THE GERMS
